PROFESSIONAL SUMMARY

Motivated and detail-oriented Bachelor of Computer Applications (BCA) student with a strong passion for front-end and back-end web development. Skilled in Java, JavaScript, HTML5, CSS3, PHP, MySQL, and UI/UX Design, with a solid understanding of programming fundamentals, responsive web development, and database management. Currently developing a Gym Management System as a college project, implementing CRUD (Create, Read, Update, Delete) operations for member management, database connectivity, and user-friendly interfaces. Passionate about learning new technologies, solving real-world problems, and building efficient web applications. A quick learner with excellent communication, teamwork, and problem-solving skills, eager to contribute to innovative software projects and grow as a Full-Stack Developer.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, PHP

Web Technologies: HTML5, CSS3, Responsive Web Design

Database: MySQL

UI/UX: UI Design, UX Principles, Wireframing, Prototyping

Development Concepts: CRUD Operations, Object-Oriented Programming (OOP), Database Connectivity

Tools: Visual Studio Code, Git, GitHub, Figma

Soft Skills: Communication, Teamwork, Problem Solving, Time Management, Continuous Learning

PROJECTS

Gym Management System (College Project)

- Developed a web-based Gym Management System using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented CRUD (Create, Read, Update, Delete) operations for member management.
- Created responsive and user-friendly interfaces with a focus on UI/UX.
- Integrated MySQL database for storing and managing member information.
- Developed modules for member registration, membership plans, trainer details, and record management.
- Applied front-end and back-end development concepts to build a complete web application.

Lost and Found Pets Mobile Application (UI/UX Design Project)

Prototype: figma.com/proto/Qr0Mca8J60AJ77gGnaADII/Untitled

- Designed a complete UI/UX case study for a mobile app that helps reunite lost pets with their owners, covering research through high-fidelity prototyping.
- Conducted user research through surveys and interviews, and built user personas (Pet Owner, Finder, Animal Lover) to guide design decisions.
- Mapped user journeys and information architecture to keep navigation simple and intuitive.
- Created low-fidelity wireframes followed by high-fidelity visual designs using calming colors and readable typography.
- Built an interactive prototype in Figma covering onboarding, login/signup, lost and found reporting, messaging, and notifications.
- Conducted usability testing with real users to refine navigation, readability, and overall experience.

EDUCATION

2024 – Present

Bachelor of Computer Applications (BCA)

Universal College, Kathmandu

- Currently in 4th Semester, pursuing a specialization in software and web development.

2023

10 +2 | Computer Science

Global School of Science, Kathmandu

- I had completed my Secondary Level study from Global School of Science with 3.22 GPA.

LANGUAGES

Nepali | English | Hindi
